(font size: 13, italic, left aligned)

TITLE OF THE ARTICLE (FONT SIZE: 16, BOLD, CENTERED, CAPITALS)

Abstract (font size: 10, bold)
The abstract should contain maximum 250 words. No citation, state in the abstract a primary objective, research design, methodology, main outcomes and results. Font size: 10, italic, justify, indentation of the paragraph: left – 1 cm, right – 1 cm.

1. INFORMATION FOR AUTHORS (FONT SIZE: 11, BOLD, LEFT ALIGNED)

The paper section structure proposition: Introduction – The Proposed Method/Algorithm (optional) – Method – Results and Discussion – Conclusion. The paper should not be shorter than 8 and not longer than 16 pages.

Text should be prepared using Times New Roman, font size: 11, normal, justify. Page format: B5 (18.2 cm × 25.7 cm). Margins: top – 2.5 cm, bottom – 2.5 cm, left – 2.0 cm, right – 2.0 cm. Footer: 1.2 cm. Indentation at the beginning of each paragraph: 0.5 cm. The spacing in the paragraph: before – 0 points, after – 0 points. Tabulator: 0.5 cm. Line spacing: single. Information about author (authors) should be included in a footnote.

The document should be prepared using any version of MS Office Word. We recommend to use styles defined in the template.

Please use the APA 7th citation style (https://guides.himmelfarb.gwu.edu/APA/home) – e.g. (Pascal, 1653), (Newton, Lagrange & Hamilton, 1813), (Einstein et al., 1915).

1.1. Details (font size: 11, bold, left aligned)

When numbering chapters and sections DO NOT USE "Bullets and Numbering". The paper should contain a maximum of 10 pages, including the summary, figures and tables.

Bullets with a dash (DO NOT USE the "Bullets and Numbering"):
− bullet item – indented: 0.5 cm,
− position of text – indented 1.0 cm.

---

* Institutional affiliation (university, faculty, department), country, e-mail
** Institutional affiliation (university, faculty, department), country, e-mail

Numbering (DO NOT USE the "Bullets and Numbering"):

1. Item number – indented: 0.5 cm,
2. Position of text – indented 1.0 cm.

2. MATHEMATICAL EQUATIONS, FIGURES AND TABLES

2.1. Mathematical equations

Mathematical equations should be centered and numbered consecutively on the right. Equations should be placed near the reference to the formula. Mathematical equations should be prepared by means of Microsoft Equation 3.0 or Microsoft Word 2013 Equation Tool (preferred).

$$e \cdot q + \left[u \cdot \frac{a}{t}\right] = o \cdot \sqrt[3]{\omega} \tag{1}$$

where: e – …,
$\quad\quad q$ – …,
$\quad\quad u$ – … .

Symbols should be write in text by means of *italic fonts* – e. g. $e = 12.34$ mm, $q = 45.67$ N, $u = 7.89$ mm^2, etc. Units of measurement should be presented simply and concisely using System International (SI) units.

2.2. Figures

Figures should be placed correctly in the text (not far from the reference to the figure). Number and title of the figure should be placed below it and centered. All figures should be cited in the paper in a consecutive order.

If the article is accepted, authors can be asked to provide the source files of the figures. Each figure should be supplied in a separate electronic file. Figures should be supplied in the form of graphical files in the *.png, *.tif, *.jpg or *.cdr formats. Bitmap images should be of at least 300 dpi resolution unless the resolution is intentionally set to a lower level for scientific reasons.

Fig. 1. Figure title (font size: 9, bold)

2.3. Tables

Tables should be centered. The table number and the descriptive title should be placed above the table, aligned to the left edge of the table. Tables should be cited consecutively in the text.

Tab. 1. Table title (source) (font size: 9, bold)

Text	Text	Text	Text	Text	Text	Text
Text	Text	Text	Text	Text	Text	Text
Text	Text	Text	Text	Text	Text	Text
Text	Text	Text	Text	Text	Text	Text

3. CONCLUSIONS

Reference should be placed at the end of the article in the alphabetical order. Only items cited in the text should be posted.

References expect a minimum of 15 references primarily with minimum 60% to journal papers. It used of a tool such as Zotero, Mendeley, or EndNote for reference management and formatting, and have choosen the APA 7th style.
